**TROTWOOD**  
GROWING TOGETHER

### Interesting Facts

#### About Trotwood

Trotwood, Ohio, has a notable business history that is deeply rooted in the community. One interesting fact is that Trotwood was once home to the Trotwood Trailer Company, founded in 1932. This company was known for manufacturing unique travel trailers and mobile homes, and it had a significant impact on the local economy for many years. The company's trailers were quite innovative for their time, offering affordable and mobile living solutions, which was quite groundbreaking during periods like the Great Depression.

Although the company eventually closed its doors, its legacy still holds a place in Trotwood's history and serves as an example of American ingenuity and entrepreneurship. Submitted by Sean Freeman

## National Cholesterol Education Month

Blood cholesterol is a waxy, fat-like substance that your body produces to perform jobs such as making hormones and aiding in fat digestion. Your body can make all the cholesterol it needs, so it is important to monitor dietary cholesterol intake. Foods that contain cholesterol include animal foods, meats, seafoods, poultry, eggs and dairy.

Participating in an annual wellness visit with your primary care provider or an employee sponsored biometric screening are great ways to get your cholesterol levels checked. [CLICK HERE](#) to learn more about cholesterol, and what your blood cholesterol numbers mean.

## Healthy Aging Month

Healthy aging is more than just inheriting good genetics. Lifestyle factors, such as eating healthy, getting enough exercise, going to the doctor, and fostering your mental health all contribute to the aging process. Since risk for chronic diseases, such as heart disease, dementia, Type 2 diabetes, and arthritis increases with age, it is important to practice these behaviors throughout your lifespan. In fact, a study of adults 40 and older found taking 8,000 or more steps a day, when compared to tak-

ing only 4,000, was associated with a 51% lower risk of death from all causes. [CLICK HERE](#) to learn more about healthy aging strategies.
